

# P3 Consulting Services

## Unleash Your Project Delivery Potential with myP3

### WHAT IS P3 CONSULTING?

myP3 offers a range of project, program and portfolio (P3) practice services through our Capability Uplift, Consulting and Centre of Expertise (COE) provisions to enable you to implement and / or continuously improve your organisation's delivery management capabilities.

In helping you set fit-for-purpose governance, frameworks, processes, methods, techniques, templates, business rules, guidance and coaching, we offer to embed quality, consistency and predictability in delivery supported by informed governance decision-making to enable success.

### VALUE

These services enhance existing or fully develop new standards capability effectively into your organisation that ensure right-fit (for now) maturity design and delivery outcomes – all aligned to internationally recognised best practice. This will:

- Increase quality by promoting best practice with consistent products and services.
- Improve efficiencies with standardised frameworks, processes and tools.
- Increase confidence in the planning and delivery of initiatives.
- Facilitate knowledge sharing and expertise.
- Allow for better decision-making.

### SERVICES

#### COE-AS-A SERVICE

myP3 can fully operate your Centre of Expertise (CoE) which underpins the ongoing improvement of your project, program and portfolio delivery activities. The CoE safeguards that processes and education are standardised, repeatable and accessible.

To achieve this we focus on the development of project, program and portfolio delivery staff within your organisation to increase their knowledge of disciplines, skills and delivery reliability.

A Centre of Expertise contains:

- fit-for-purpose frameworks, methods and practice management.
- tools, techniques and templates.
- central source of reference information
- guidance materials and factsheets.
- practical advice and peer review.
- identification of competency deficiencies and education needs.

The regular upkeep of the P3 frameworks, methods and education is essential for enabling fit-for-purpose practices that are applied consistently and that add value.

#### CAPABILITY UPLIFT

We provide rapid performance improvement, inclusive of our out-of-the-box industry best practice methodologies, frameworks, standards, and templates, deployed and transitioned through training and coaching.

We enable a practice maturity improvement based on an agreed uplift roadmap, to drive our clients' improvement growth plans for PMO, portfolio, program and project management teams and practice capability.

P3 practice artefacts built on our own methodologies and available 'off the shelf', as

## Unleash Your Project Delivery Potential with myP3

required to rapidly implement standardisation and performance improvement.

This includes production of:

- project, program, and portfolio management frameworks, lifecycles, standards and methods.
- suite of templates, fact sheets and guides.
- training and coaching upon deployment.
- refining of our clients' own frameworks to be fit-for-purpose.
- implementation of a continuous improvement framework to refine them as maturity improves.

By taking the time to understand the organisation currently and determining its future state, we develop appropriate modelling to fit the organisation and functions it requires.

### INTEGRATED FRAMEWORKS ADVISORY

We assess our clients' overall current state and pain points through broad workshop engagement with key business stakeholders, provide outcomes mapping and help define the short and longer-term objectives for development of integrated processes that need to work together to achieve success.

Considerations include other specialist frameworks and corporate functions such as strategy, performance, IT, asset management, finance, HR, etc.

Integrated Frameworks Advisory is delivered by:

- assessing overall current state.
- identifying strengths and weaknesses in portfolio, program and project management.
- conducting workshops for stakeholder input.
- understanding future needs of the business.
- completing a gap analysis of current state to future state.
- development of an improvement roadmap.

### PRACTICE CONSULTING

We offer general Practice Consulting services across the full gambit of P3 practice models, themes, and disciplines. Our team's skills and experience coverage mean that we have the right person with knowledge to consult on topics at hand. We can provide assistance for you on any matter over extremely wide and varied scope.

Some examples are:

- to help our clients with a particular focus area such as management of benefits.
- to assist with governance boards improve on meetings and decisions.
- To advise on role descriptions for new CoE staff hires

### ADHOC ADVISORY

myP3's clients receive access to ad-hoc advice and guidance on any matter related to their management and delivery of portfolios, program and projects and including the supporting processes, organisational frameworks, technologies and information to achieve success.

### NEXT STEPS

When you need assistance with Project, Program or Portfolio capabilities contact Kelly, our PMO Services Manager.
