## Unleash Your Project Delivery Potential with myP3

### WHAT IS MYP3+?

myP3+ is an easy-to-use Project Portfolio Management (PPM) solution for capturing, analysing, and reporting project portfolios data together with a built-in and guided delivery framework. This next generation project management tool has been built from the ground up by our consultants based on their field-experience with clients.

myP3 has successfully partnered with clients around Australia in government, manufacturing, utilities, resources, health and education to provide superior PMO and delivery services. Our goal is simple: To help you unleash your project delivery potential.

### VALUE

myP3+ will empower your organisation to accelerate your project success providing greater visibility every step of the way with its intuitive platform and myP3 experts on hand to guide you. This solution will assist you to:

- Standardise how your initiatives are managed.
- Empower your team to get delivery right.
- Empower your leaders to deliver value.
- Assure your teams as they work.
- Centralise project communication.
- Save time document writing.

### SOLUTION FEATURES

#### FRAMEWORK

Manage initiatives your way by standardising how your initiatives are managed and delivered for success.

#### CONTROLS

Set the information you want to capture and collect only what is relevant to you.

#### PROCESS HELP

Lower the barrier to entry for new project managers by knowing your teams have step-by-step guidance on pragmatic practice and empower your people to get it right!

#### EXCEPTION HELP

Ensure data accuracy and encourage early intervention as your team works with reliable error check prompts.

#### COLLABORATION

Decentralise from an App to where people are working – Microsoft Teams. 'Teams' is here – use it in an integrated way within the project and across business units.

#### REPORTING

Make better decisions through visibility and transparency by empowering your stakeholders to track progress, evaluate performance and direct projects to success with prebuilt dashboards and analysis reports for all aspects of delivery.
